

# Reinforcement Learning

The Real Artificial Intelligence

# Machine Learning

- Supervised Learning
  - Unsupervised Learning
  - Reinforcement Learning
- 
- A decorative light blue triangle is located in the bottom right corner of the slide.

# What is Reinforcement Learning?

● ALPHAGO  
00:10:29

● LEE SEDOL  
00:01:00

# Flappy Bird

Wait for it.

**Birds alive: 2**

**Current generation: 21**

**Fitness: 7723**

# Course Coverage

- Python and its libraries.
- Game Theory and Q-Tables.
- Markov Decision Process and Bellman Equations.
- Model Free Learning.
- Deep-Q Nets.
- Conquering PacMan and other applications.

# Pre-requisites

- Python Basics.
- Matrix Multiplication and some elements of Linear Algebra.
- Machine Learning not needed but recommended.

# Course Instructors

1. **Preetham Reddy**: EEE, Association Coordinator.
2. **Sahith Dambekodi**: EEE, GSoC 2017 with CMUSphinx.
3. **Sebastin Santy**: EnI, GSoC 2017 with Mozilla.
4. **Wazeer Zulfikar**: CS, GSoC 2017 with R Project in Statistical Computing.

# Evaluation Scheme

Won't be following Midsem structure.

## Evaluation Scheme

Component	Weightage (%)	Tentative Date	Remarks
Assignment - I	20	Early September	Open Book
Assignment - II	20	Post Mid-Semester Exams	Open Book
Quizzes	20	Throughout Course	Closed Book
Project	40	Before Compre	Open Book

# Thanks!
